

Run Bug

by Roberto Perez-Franco

Now you're a PhD student, and grades shouldn't worry you.

Yes, Professor, but what if I get a "C"?

Oh, that's not good. One "B" every now and then isn't too bad, though...

So basically, I should get "A"s.

Yeah. But as I said, don't worry about the grades. Focus on the research.

I'm so screwed!
