

Run Bug

by Roberto Perez-Franco, G

Spring is finally here!

Yeah, it sucks...

*Are you crazy?
It is wonderful!*

What is wonderful?

*The blue sky, the fresh breeze, the squirrels running around with their short fluffy tails, the birds singing again, the boats sailing in the Charles river, the green grass, the campus trees full of pink and white flowers...
Don't you enjoy flowers?*

Pollen gives me season allergies.

There must be something about Spring you like.

That Winter is over?
